AmbroCryl

ACRYLIC PATTERNED SHEETS

The sheets extruded by us, trade name Ambrocryl, are a high quality products, appreciated by the Nordic countries for their RESISTANCE and BRILLIANCE of appearance.

Ambrocryl sheets have an EXCELLENT SPREAD OF LIGHT, with a SELF-CLEANING SURFACE which promotes a GOOD WATER FLOW. They are WEATHER PROOF and UV RESISTANT, WITHOUT ANY YELLOWING. They allow a LONG LIFE TO ALL OUTDOOR APPLICATIONS. The operating temperature range is from - 40° C to + 80° C. Ambrocryl sheets are LIGHTWEIGHT (about half of glass) and are easily installed.

Ambrocryl provides GOOD INSULATION FROM NOISE, COLD and HEAT consequently giving ENERGY SAVINGS. You need only to take care to remember the terminal expansion during the installation (7 mm/100 c° x ml) and to remove the protective polyethylene film. The sheets can be bent, sawn, drilled, thermoformed and when they have come to the end of their working life can be RECYCLED to make other products.

They may be cleaned with a soft cloth or sponge using soap or mild detergent. Never use chemicals or sharp tools that may damage the surface of the sheets.
